Date(s) of Service	Disputed Services	Amount In Dispute	Amount Due
September 10, 1996 to September 11, 1996	Inpatient Hospital Services	\$2,982.05	\$0.00

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. Former 28 Texas Administrative Code §133.305, effective June 3, 1991, 16 *Texas Register* 2830, sets out the procedures for resolving medical fee disputes.
2. Former 28 Texas Administrative Code §134.1(f) effective October 7, 1991, 16 *Texas Register* 5210, sets out the reimbursement guidelines for the services in dispute.
3. Texas Labor Code §413.011 sets forth provisions regarding reimbursement policies and guidelines.
4. No explanations of benefits were found in the submitted documentation.

Findings

1. This dispute relates to inpatient hospital services. The former agency's *Acute Care Inpatient Hospital Fee Guideline* at 28 Texas Administrative Code §134.400, 17 *TexReg* 4949, was declared invalid in the case of *Texas Hospital Association v. Texas Workers' Compensation Commission*, 911 *South Western Reporter Second* 884 (Texas Appeals – Austin, 1995, writ of error denied January 10, 1997). As no specific fee guideline existed for acute care inpatient hospital services during the time period that the disputed services were rendered, the 1991 version of 28 Texas Administrative Code §134.1(f) applies as the proper Division rule to address fee payment issues in this dispute, as confirmed by the Court's opinion in *All Saints Health System v. Texas Workers' Compensation Commission*, 125 *South Western Reporter Third* 96 (Texas Appeals – Austin, 2003, petition for review denied). 28 Texas Administrative Code §134.1(f), effective October 7, 1991, 16 *Texas Register* 5210, requires that "Reimbursement for services not identified in an established fee guideline shall be reimbursed at fair and reasonable rates as described in the Texas Workers' Compensation Act, sec. 8.21(b), until such period that specific fee guidelines are established by the commission."
2. The former Texas Workers' Compensation Act section 8.21 was repealed, effective September 1, 1993 by Acts 1993, 73rd Legislature, chapter 269, section 5(2). Therefore, for services rendered on or after September 1, 1993, the applicable statute is the former version of Texas Labor Code section 413.011(b), Acts 1993, 73rd Legislature, chapter 269, section 1, effective September 1, 1993, which states, in pertinent part, that "Guidelines for medical services fees must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. The commission shall consider the increased security of payment afforded by this subtitle."
3. 28 Texas Administrative Code §133.305(d)(7), effective June 3, 1991, 16 *Texas Register* 2830, requires that the request shall include "copies of all written communications and memoranda relating to the dispute." Review of the documentation submitted by the requestor finds that the request does not include a copy of explanations of benefits or other written communications and memoranda pertinent to the dispute. The Division concludes that the requestor has not met the requirements of §133.305(d)(7).
4. Review of the submitted documentation finds that:
 - The requestor's position statement asserts that "It is the position of Methodist Medical Center that our charges for the claims in question are fair and reasonable and should be paid in full."
 - The *AFFIDAVIT OF STEVEN J. MEYERS IN SUPPORT OF REQUEST BY METHODIST HOSPITALS OF DALLAS FOR MEDICAL DISPUTE RESOLUTION* asserts that "The charges set out in the chargemaster substantially conform to the Blue Cross pricing structure that was in effect as of October 1, 1994."
 - The requestor did not submit documentation to support that the charges billed for the services in dispute substantially conform to the Blue Cross pricing structure that was in effect as of October 1, 1994.
 - The requestor did not discuss or provide documentation to support how payment according to the Blue Cross pricing structure would result in a fair and reasonable reimbursement for the services in dispute.
 - The affiant further asserts that "it appears from anecdotal evidence available to the Hospital from time to time that its charges are substantially below those of one or more other major hospitals in the Dallas area. It is further my understanding that the Hospital's charges are among the lowest in the Dallas area."
 - The requestor did not submit documentation to support that its charges are substantially below those of one or more other major hospitals in the Dallas area or that the Hospital's charges are among the lowest in the Dallas area.
 - Regardless of whether the hospital billed its usual and customary charges or whether the charges were comparable to charges billed by other hospitals for similar services, no documentation was found to support that the amount charged for the disputed services represents a fair and reasonable reimbursement for the services in dispute.
 - The Division finds that a reimbursement methodology based upon payment of a hospital's billed charges, or a percentage of billed charges, does not produce an acceptable payment amount. Such a reimbursement methodology would leave the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs. Therefore, a reimbursement amount that is calculated based upon a percentage of a hospital's billed charges cannot be favorably considered when no other data or documentation was submitted to support that the payment amount being sought is a fair and reasonable reimbursement for the services in dispute.
 - The requestor did not demonstrate the amount sought would result in a fair and reasonable reimbursement for the services in this dispute.

- The requestor did not submit documentation to support that the payment amount being sought is a fair and reasonable rate of reimbursement for the disputed services.
 - The requestor did not demonstrate or support that payment of the requested amount would satisfy the requirements of 28 Texas Administrative Code §134.1.
5. The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

Conclusion

The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under 28 Texas Administrative Code §133.305. The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
